DATASHEET

FLOW-PS-230/400

Power Supply for safe power delivery to cable installation equipment

Techpro FLOW-PS is designed as a mobile power supply solution for Techpro FLOW-CF and other electrically powered cable installation equipment.

The product consists of a robust cable reel with an integrated power supply, designed for safe and flexible power delivery during cable installation in the field.

FLOW-PS makes it easy to pay out and retrieve the power supply cable, reduces the risk of cable damage and contributes to safe and efficient operation on site.

Key data

- Mobile power supply solution for FLOW-CF
- Robust cable reel with carrying and telescopic handles
- Easy transport and handling
- Durable cable for demanding environments
- Safe power connection
- Compact, field-ready design

Features and benefits

- Easy connection to FLOW-CF
- Safe power supply during cable pulling
- Quick cable payout and retrieval
- Robust construction for field use
- Improves health, safety and site housekeeping

Technical specifications						
Product	**Cable type**	**Length**	**Voltage**	**Protection**	**Weight**	**Dimensions (L x H x W, mm)**
FLOW-PS-230	H07RN-F 4G6mm²	50m	230V	IP44	~28.5 kg	~ 420 x 350 x 510
